

HI-FLO MERV-8 Filters

These innovative new filters replace traditional pleated and OEM filters. Made of 100% polyester and 90% recycled content, our HI-FLO filters have 20% less air restriction than traditional MERV-8 pleated and OEM filters for better equipment performance, while providing five times more dust-holding capacity.

- ▶ Designed specifically for dehumidifiers
- ▶ MERV-8 efficiency
- ▶ Made of 100% polyester material
- ▶ 20% less air restriction than traditional pleats
- ▶ Promotes top performance of your equipment
- ▶ Five times more dust and particle holding capacity than traditional pleated and OEM Filters
- ▶ Maintains a lower pressure drop for optimum equipment performance

Easily fits most dehumidifiers

Made with an exclusive variable-density polyester media

Item	Size	Fits
1604-2145	12" x 12" x 1"	DrizAir 1200, LGR7000 XLi, Phoenix R125, Phoenix R150, Phoenix R175, Phoenix R200, Phoenix D385
1606-2147	14" x 14" x 1"	DrizAir 2000
1608-2149	15" x 16 1/2" x 1"	Dri-Eaz 2800i, 3500i
1609-2140	11" x 10" x 1"	Dri-Eaz Evolution, Revolution
1636-5862	9" x 12" x 1"	Phoenix Dry Max
