

LEAD SAFE

LEAD DUST CLEANER & LEAD DUST WIPES

Formulated To Control and Remove Lead Dust

LeadSafe Lead Dust Cleaner and LeadSafe Lead Dust Wipes are designed to efficiently remove harmful lead dust after renovation, repair, painting (RRP), or abatement projects. LeadSafe cleaning products utilize the most trusted and advanced cleaning technology available. These lead dust cleanup products work by actively lifting lead dust and other surface contaminants away from the substrate.

LeadSafe Lead Dust Cleaner and LeadSafe Lead Dust Wipes are ideal for use as part of any RRP compliance program. They meet specific requirements set out in the EPA RRP Rule by satisfying work practice standards.

LeadSafe Wipes and Cleaner are ideal for use on any surface where dust from lead-based paint is present:

- Walls
- Windows
- Railings
- Moldings
- Floors
- Blinds
- Gates
- Baseboards
- Stairs
- Doors
- Fences
- Trim
- Ceilings
- Sills
- Porches
- Basements

LeadSafe Wipes and Cleaner are designed for use by:

- Abatement Contractors
- Painting Contractors
- Public Health Inspectors
- Environmental Specialists
- Home Owners
- Building Owners
- Apartment Owners

Fiberlock products meet requirements of the EPA Renovation, Repair, and Painting (RRP) Rule

Beginning in April 2010 contractors performing renovation, repair and painting projects that disturb lead based paint in homes, child care facilities, and schools built before 1978 must be certified by the EPA and follow specific work practices to prevent lead contamination.

LEAD SAFE

LEAD DUST CLEANER & LEAD DUST WIPES

Lead Dust Cleaner

LeadSafe Lead Dust Cleaner is a concentrated environmentally friendly product designed to quickly remove lead dust after lead abatement and RRP related activities. Lead dust residues are heavier than everyday dust and are therefore harder to “pick up” with traditional cleaning agents. Typical household cleaners either drive lead residues deeper into a surface or simply spread them around as you wipe. To truly clean lead dust you need to first pull the lead away from a substrate and then hold it in suspension so that it can be wiped away. LeadSafe Lead Dust Cleaner utilizes a proprietary formulation of citric acid and chelating agents that do just that. First, the citric acid breaks the surface tension and lifts the heavy lead molecules away from the substrate, then the chelating agents bind with the lead molecules so they remain in suspension and can be easily wiped away.

Description	Size	Color	Odor	Product Code	Active Ingredient
Lead Dust Cleaner	1 gal	Light Green	Fresh Scent	5496	Proprietary chelating agents
Lead Dust Cleaner	32 oz.	Light Green	Fresh Scent	5496	Proprietary chelating agents

Lead Dust Cleaning Wipes

LeadSafe Lead Dust Wipes are convenient, heavy duty, TSP (Trisodium Phosphate) pre-soaked wipes that quickly remove harmful lead dust. LeadSafe Wipes meet all Federal, State, HUD, and EPA guidelines for cleaning and removing lead dust. LeadSafe wipes are a critical part of a conscientious program for the interim control of lead-based paint hazards as well as an integral part of any RRP cleaning program.

Description	Size	Color	Odor	Product Code	Active Ingredient
Lead Dust Wipes	90 ct.	White	Fresh Scent	5498	Trisodium Phosphate

Permanent Lead Abatement Solutions. Fiberlock offers multiple solutions to permanently address lead-based paint including encapsulants and paint removers. These products are the most specified, easy-to-use and economical solutions for addressing lead-based paint.

LBC & ChildGuard - Lead Paint Encapsulants

LBC Type III & ChildGuard are thermoplastic-elastomeric water-based copolymers blended specifically to form a durable yet flexible barrier between lead-based paint and the environment. LBC & ChildGuard are high-solids coatings formulated to offer unparalleled coverage, economics and paint-like aesthetics while preserving historic and architectural detail. In addition, LBC & ChildGuard contain Bitrex®, a bitter tasting, non-toxic anti-ingestant to discourage oral contact.

Piranha - Paint Removers

Fiberlock's Piranha Paint Removers are specifically formulated to remove lead-based paint. This line of high performance chemical strippers includes NMP, alkaline paste, and solvent based products to assist in virtually any lead-based paint removal project.
