

HIGH VOLUME EXTRACTOR

ROVER

The Rover® HVE will change the way you think about extraction. Unsurpassed maneuverability and loads of special features make extraction more efficient than ever. The Rover's joystick precisely controls separate drive wheels to allow easy maneuvering around the sharpest corners. Its patent-pending stainless head with custom polymer glide has a self-healing edge that easily rides over the carpet to maximize extraction on ALL types of carpet.

Efficient in use, transport and storage. An easy 2-speed switch optimizes extraction effectiveness, and a clear take-up tube shows progress while you work. Integrated wheels make it easy to transport the Rover HVE from the van to the job and back. The unit's ergonomic handle collapses easily for compact storage.

- » SEPARATE DRIVE WHEELS allow the Rover HVE to move easily around corners and in tight spots
- » REPLACEABLE POLYMER GLIDE seals firmly over all carpets to provide deep extraction
- » Joystick is rated for 5 million cycles
- » COLLAPSIBLE HANDLE for space-saving storage and ease of transport
- » FRONT LOADING WHEELS make the unit easy to transport and store
- » Extraction can be visually monitored through the CLEAR TAKE-UP TUBE

MODEL	F354
WEIGHT	67 LBS. 30 KG
EXTRACTION PATH WIDTH	19.75 IN. 50.2 CM
DIMENSIONS (H x W x D)	45.7 x 22 x 27.6 IN. 116 x 56 x 70 CM
FOLDED DIMENSIONS (FOR STORAGE OR TRANSPORT)	40.5 x 22 x 10.7 IN. 103 x 56 x 27 CM
AMP DRAW	3 AMPS
SPEED	2 SPEED SWITCH
POWER	110 W/115V
MOTOR	ONE 0.148 HP MOTOR ON EACH WHEEL
CORD LENGTH	45 FT. 13.7 M
GLIDE	REPLACEABLE POLYMER
HANDLE	COLLAPSIBLE
HOUSING	ROTOMOLDED POLYETHYLENE
FRAME	STAINLESS STEEL
MOTOR CONTROL	JOYSTICK, RATED FOR 5 MILLION CYCLES

FOLDS FOR TRANSPORT & STORAGE

19.75" EXTRACTION PATH
