7" Grinder-Vacs

Available as an assembly ready to go or in a kit to fit your own grinder

US Saws grinder-vacs and shroud kits are the professional's choice for dust free concrete grinding, surface preparation and coating removal.

US Saws shrouds are made with dual density, high wear, non-marking polyurethane manufactured with a steel wear, stiffening band molded into the perimeter of the shroud for extra-long life and durability.

The convertible option for the shroud allows the operator to grind directly up against a vertical surface. The steel wrap around ring helps extend the life of the shroud.

The one piece convertible edge is attached to the body of the shroud so there are no separate parts to come loose or lose.

Precision machined aluminum mounting hardware secures the shroud to the grinder.

Support flange allows the shroud to flex and keep a tight seal over uneven surfaces while preventing the cup wheel from making contact with it.

7" Grinder-Vacs

7" Grinder-Vac Assemblies

7" Pro Grinder-Vac Assembly 8,500 RPM

Includes: Metabo 24-180 Grinder (15 Amp, 8,500 rpm), Pro Dust Shroud (Full or Convertible style), Loop Handle, 7" Turbo 24 Segment Cup Wheel, 8' Hose, Long and Short Pro Blade Adapter Nuts, Blade Nut Wrench and Allen Wrench

Part # SX60010C with **Convertible** Shroud \$550.00

Part # SX60010 with **Full** Shroud \$526.00

7" Pro Grinder-Vac Assembly

Includes: Metabo 24-230 Grinder (15 Amp, 6,600 RPM), Pro Dust Shroud (Full or Convertible style), Loop Handle, 7" Turbo 24 Segment Cup Wheel, 8' Hose, Long and Short Pro Blade Adapter Nuts, Blade Nut Wrench and Allen Wrench

Part # SX60006C with **Convertible** Shroud \$515.00

Part # SX60006 with **Full** Shroud \$490.00

7" Pro Grinder-Vac Assembly Special

Includes: Metabo 24-230 Grinder (15 Amp, 6,600 rpm), Pro Dust Shroud (Convertible style), Loop Handle and (2) 7" 12 Segment Standard Long Thread Turbo Cup Wheels

Part # SX60006PP \$399.00

7" Economy Grinder-Vac Package

Includes: Metabo 24-230 Grinder (15 Amp, 6,600 rpm), Convertible Universal Convertible Dust Shroud, 7" 12 Segment Turbo Cup Wheel and Blade Nut Wrench

Part # SX60006EP \$359.00

7" Grinder-Vacs

7" Grinder-Vac Kits

7" Pro Dust Shroud Kits

Deluxe Kit Includes: Full or Convertible Style Dust Shroud, Aluminum Adapter Ring, Long and Short Pro Blade Adapter Nuts, Blade Nut Wrench and Allen Wrench

Basic Kit Includes: Full or Convertible Style Dust Shroud and Aluminum Adapter Ring

DELUXE Kit with **Convertible** Shroud \$229.00

7" Universal Dust Shroud Kits

Economy kits may be used on any 7" or 9" 15 amp grinder manufactured by Bosch, DeWalt, Hitachi, Makita, Metabo or Milwaukee

Includes: 7" Full or Convertible Style Dust Shroud, 5 Polyurethane Adapter Rings (One For Each Manufacturer Listed) and Collar Clamp

Part # SX13650 with **Convertible** Shroud \$129.00

Part # SX13600 with **Full** Shroud \$ 99.00

7" Grinder-Vacs

7" Grinder-Vac Accessories

7" Pro Replacement Shrouds

Includes: Polyurethane Replacement Shroud Only; For Use With US Saws Adapter Rings

Part # SX65803	Convertible	\$ 95.00
Part # SX65803H	Heavy Duty Convertible	\$115.00
Part # SX65800	Full	\$ 70.00

Loop Handle Assembly

Fits on a variety of grinders and provides increased operator comfort.

Includes: Loop Handle With Rubber Grip, Bolts and Lock Washers

Part # SX73900	\$59.00
----------------	---------

7" Grinder-Vac Hardware Kit

Includes: Housing Flanged Support, Spacer Washer, (4) 1/4"-20x1/2" Flathead Screws and (3) 1/4"-20x3/8" Socket Set Screws

Part # SX60028	\$26.00
----------------	---------

Aluminum Adapter Ring

Precision machined aluminum adapter ring for secure fit and long wear.

These adapters are machined for specific make and model grinders. To order, call with the make and model of your grinder.

Part # (Call US Saws For Correct Part #)	\$55.00
--	---------

B Nut

C1 Nut

E Nut

F Nut

Blade Mounting Nuts

Machined adapter nuts for mounting and spacing non-threaded cup wheels and Zec® wheels on grinder-vacs. A spanner wrench or 1.5" socket is used to tighten & loosen these nuts.

These nuts are machined for specific make and model grinders. To order, call with the make and model of your grinder.

Part # (Call US Saws For Correct Part #)	\$16.20
--	---------

Anti-Vibration Mount

Low cost way to mount non-threaded cup wheels on grinders; does not provide proper spacing on some grinders

Part # SX69002	\$6.50
----------------	--------

5" Grinder-Vacs

Available as an assembly ready to go or in a kit to fit your own grinder

US Saws grinder-vacs and shroud kits are the professional's choice for dust free concrete grinding, surface preparation and coating removal.

US Saws shrouds are made with dual density, high wear, non-marking polyurethane manufactured with a steel wear, stiffening band molded into the perimeter of the shroud for extra-long life and durability.

The convertible option for the shroud allows the operator to grind directly up against a vertical surface. The steel wrap around ring helps extend the life of the shroud.

The one piece convertible edge is attached to the body of the shroud so there are no separate parts to come loose or lose.

Precision machined aluminum mounting hardware secures the shroud to the grinder.

Support flange allows the shroud to flex and keep a tight seal over uneven surfaces while preventing the cup wheel from making contact with it.

5" Grinder Vacs

5" Grinder-Vac Assemblies

5" Pro Grinder-Vac Assembly Variable Speed

Includes: Metabo WE14-125 PLUS Grinder (12 Amp Variable Speed, 7,000 to 10,500 rpm), Pro Dust Shroud (Full or Convertible Style), Loop Handle, 4.5" 9 Segment Cup Wheel, Long and Short Pro Blade Adapter Nuts, Blade Nut Wrench and Allen Wrench

Part # SX65000C with **Convertible** Shroud \$580.00

Part # SX65000 with **Full** Shroud \$560.00

5" Pro Grinder-Vac Assembly

Includes: Metabo W8-115 Grinder (8 Amp, 10,000 rpm), Pro Dust Shroud (Full or Convertible style), Loop Handle, 4.5" 9 Segment Cup Wheel, Long and Short Pro Blade Adapter Nuts, Blade Nut Wrench and Allen Wrench

Part # SX65005C with **Convertible** Shroud \$390.00

Part # SX65005 with **Full** Shroud \$370.00

5" Economy Grinder-Vac Package

Includes: Metabo W8-115 Grinder (8 Amp, 10,000 rpm), Full Dust Shroud With Hub and Clamp, 4.5" 9 Segment Turbo Cup Wheel, Short Pro Blade Adapter Nuts and Blade Nut Wrench

Part # SX65005EP \$299.00

6" and 9" Grinder-Vacs

Available as an assembly ready to go or in a kit to fit your own grinder

9" Grinder-Vac Assemblies and Kits

Uses 8.5" cup wheels for about a 25% increase in production over that of the 7" Grinder-Vac.

9" Pro Grinder-Vac Assembly 5,000 RPM

Includes: DeWalt 28493N Grinder (15 Amp, 5,000 RPM), Full Pro Dust Shroud, Loop Handle, Pro Blade Adapter Nuts and Spanner Wrench

Part # SX69000 with **Full** Shroud \$560.00

9" Pro Dust Shroud Kit For DeWalt D28493N

Includes: Full or Convertible Dust Shroud, Clamp and Pro Blade Adapter Nuts

Part # SX69215 with **Convertible** Shroud \$259.00

Part # SX69015 with **Full** Shroud \$234.00

6" Grinder-Vac Assemblies and Kits

Uses 5" cup wheels for a wider blade selection and slightly better production rates than the 5" Grinder-Vac models.

6" Pro Grinder-Vac Assembly

Includes: Metabo WE14-150 Grinder (12 Amp, 9,000 rpm), Pro Dust Shroud (Full or Convertible style), Loop Handle, Long and Short Pro Blade Adapter Nuts, Blade Nut Wrench and Allen Wrench

Part # SX66000C with **Convertible** Shroud \$529.00

Part # SX66000 with **Full** Shroud \$509.00

6" Pro Dust Shroud Kit Metabo WE14-150

Includes: Full or Convertible Dust Shroud, Aluminum Adapter Ring, Long and Short Pro Blade Adapter Nuts, Blade Nut Wrench and Allen Wrench

Part # SX66215 with **Convertible** Shroud \$219.00

Part # SX66015 with **Full** Shroud \$199.00

5" and 7" Polishers

Available as an assembly ready to go or in a kit to fit your own grinder

Polishing Assemblies

5" Pro Polishing Assembly

Includes: Metabo PE12-175 Variable Speed Grinder (10 Amp, 700-2,200 RPM), 5" Convertible Shroud, 5" Loop Handle and 5" Flexible Backing Pad

Part # SX65005CP with **Convertible** Shroud \$490.00

Dependable units great for polishing countertops, working in tight areas or in smaller areas

7" Pro Polishing Assembly

Includes: Metabo PE12-175 Variable Speed Grinder (10 Amp, 700-2,200 RPM), 7" Convertible Shroud, 5" Loop Handle and 7" Flexible Backing Pad

Part # SX60006CP with **Convertible** Shroud \$517.00

Polishing Kits

5" Polishing Shroud Kit For Metabo PE12-175

Includes: Convertible Style Dust Shroud, Adapter Ring and 5" Backing Pad

Part # SX65216 with **Convertible** Shroud \$169.00

7" Polishing Shroud Kit For Metabo PE12-175

Includes: Convertible Style Dust Shroud, Adapter Ring and 7" Backing Pad

Part # SX60216 with **Convertible** Shroud \$198.00

Dust Collection Systems

Mega-Vac Dust Collector

High volume airflow with large capacity dust container for extended use.

Collects dust resulting from concrete grinding, cutting, planing, or cleaning.

Works best with joint cleanout saws, crack chasing saws and other saws for cutting applications.

Pleated filter with crank handle to move dust out of the top filter & into the collection pail at the base for extended life.

50-60 pound dust bin capacity.

Durable, heavy duty frame on wheeled base for maneuverability.

Available in electric and gas models.

Gas Mega-Vac

6.5 HP Honda Gas Motor with 1300 cfm, 9.5" water lift and 5" inlet mounted on wheeled heavy-duty base with large canister style filter, filter cover and 6" to 4-1/4" splitter for use with 2 hoses.

Part # SX24555

\$2,950.00

Electric Mega-Vac

1.5 HP 18 Amp electric motor with 8.5" water lift and 4" inlet mounted on wheeled heavy duty base with large canister style filter, filter cover and 6" to 4-1/4" splitter for use with 2 hoses.

Part # SX24550

\$2,750.00

Cyclone Separator

A low cost way to turn your Shop-Vac into an effective industrial dust collector.

Made of durable high density polycarbonate, it holds up to abrasive concrete dust.

It removes 99.9% of concrete dust that passes from your grinder or saw's dust shroud before it reaches your vacuum filter.

It attaches to any shop-type vacuum & extends its' motor's life while reducing downtime cleaning and changing filters.

Heavy debris falls into pail (any 5-gallon bucket works) for quick & easy disposal.

For use with one hand held grinder.

Cyclone Separator

Includes: Separator, 8' of 2-1/4" Hose and Dolly

Part # SX24445BAG with Adapter & 10 Bags \$225.00

Part # SX24445 without Adapter & Bags \$190.00

Ultra-Vac Dust Collection Systems

Compact and durable vacuum with HEPA filters designed specifically for concrete dust

US Saws Ultra-Vac dust collection systems have been designed with durable steel frames and aluminum bodies that are built tough for wear & tear on the construction site.

Dual motor and single motor models are offered with or without HEPA filters.

Compact and stable design for heavy duty pick up of any dry material, the Ultra-Vacs are ideal for a variety of grinding, tuckpointing and general cleanup of work areas.

Front and rear handles provide for easier transportation up and down stairs.

Large capacity dust bin is trash bag friendly and easy to empty.

Shaker style filter clearing.

Heavy-duty 5" wheels move effortlessly over cords.

Ultra-Vac Dust Collection Systems

Ultra-Vac Systems

Ultra-Vac 1250

Includes: Dual 120V single phase electric motors, durable housing, 12.5 gallon kick-out dust bin, 25' 2" hose and 1 regular polyfelt pleated filter.

Part # SX50000 with (2) HEPA Filters	\$2,495.00
Part # SX50005 without HEPA Filters	\$1,995.00

Ultra-Vac 950

Includes: Single 120V high efficiency 6.6" turbine low noise motor, durable housing, 9.5 gallon kick-out dust bin, 25' 2" hose and 1 regular polyfelt pleated filter.

Part # SX50100 with (1) HEPA Filter	\$1,399.00
Part # SX50105 without HEPA Filter	\$1,299.00

Ultra-Vac Accessories

HEPA Replacement Filter

Part # PE700070	\$82.61
-----------------	---------

8' Hose

25' Hose

"Y" Splitter

Hoses and Related Items

Part # SX73400	8' Length 2-1/4" Hose	\$24.00
Part # SX73405	25' Length 2" Hose With Cuffs	\$89.00
Part # SX24600-62	Metal "Y" Splitter	\$69.00
Part # SX24600-60	Hose Coupler	\$30.00

Polyurea Installation Pump

High volume electric pump for dual component installation

Electric Dual Component Gear Pump

US Saws high volume electric pump can save you up to 50% on material costs since the components are purchased in bulk instead of cartridges.

The unit comes standard with a 1:1 component ratio, but a 2:1 component ratio is available as an option.

It has an aluminum mixing manifold with flow control.

The dispensing wand has a 0-6 gpm variable speed flow control.

Production rates can range from 4,000 to 7,000 lineal feet per day.

Dual Component Polyurea Gear Pump

Includes: 1/2 HP 110V electric motor mounted on steel frame with sturdy wheeled base, (2) 5-gallon polyethylene tanks, aluminum mixing manifold with flow control, convenience tray for storage and (2) static mixers.

Part # SX20000

\$6,899.00

Aluminum one-piece, rebuildable dispensing manifold

Ergonomic control handle with volume control knob and start/stop switch

Joint Cleanout Saws

Walk-behind saws in variety of models for a wide range of applications

US Saws joint cleanout saws are the choice for the contractor who wants a dependable, reasonably priced gas or electric walk-behind saw for straight cutting applications and to be connected to a dust collection system. The JS Series saws are used for joint cleanout, concrete sawing and trench cutting; the Dust Buggy models are ideal for decorative applications, concrete cutting and joint cleanout/caulk cutting.

The JS Series saws clean joints at a rate of 20-60 fpm and are available with an electric or gas engine.

The screw down depth control accurately sets your depth. Then, you use the engage/disengage lever to raise and lower the blade without losing your depth setting.

These saws provide for a maximum cutting depth of 3" when used with a 10" blade.

The upcut blade rotation with vacuum port on the front of the blade guard allows for easy and efficient dust collection.

The Dust Buggy is an electric portable joint cleanout saw that is available with a Metabo or DeWalt grinder.

The chassis has been redesigned to provide greater stability.

These saws use a 7" or 8" blade and have a maximum cutting depth of 2" when used with an 8" blade.

The port on the blade guard allows for easy connection to a vacuum system for dust collection.

The saw is also available without the grinder for mounting your own Metabo or DeWalt grinder.

Dust Buggy's redesigned door allows easier access to the nut for changing the blade while also serving as lock for removable shoe

Engage & disengage lever on the JS saw keeps your depth set when raising & lowering the blade

Flange spacers, standard on the JS Series saws, allow for channel cutting

Joint Cleanout Saws

Gas JS Saws Model JS-130

Power Source	13 HP Honda Gas
Max RPM	5,850
Max Cutting Depth	2-3/4"
Blade Diameter	8" or 10" Dry Diamond
Blade Width	.090", .125", .250" .375", .500"

Max Cutting Depth	2"
Blade Diameter	7" or 8" Dry Diamond
Blade Width	.090", .125", .250"

Part # SX13553 **with** DeWalt grinder \$1,290.00

Part # SX13556 **without** grinder \$1,025.00

Crack Chasing Saws

Versatile hand-held and walk-behind saws for crack chasing and other cutting applications

US Saws crack chasing saws are the professional's choice for time-tested, dependable equipment.

Hand-held models are available for routing random cracks, horizontal or vertical crack repair, tuckpointing, cutting out mortar or grout joints along with the highly productive walk-behind models for crack chasing concrete or asphalt.

The versatility of these saws is enhanced with options such as a channel cut kit for the walk-behind saws or dolly for the hand-held saws. Kits are also available for upgrading your own hand-held grinder for connection to a dust collection system.

Tuckpointer Shroud Kits

Kits are available to upgrade your own grinder for connection to a vacuum system.

Bosch • DeWalt • Hilti • Metabo • Milwaukee

Kit includes shroud, adapter ring for your make/model grinder, mounting hardware and spanner wrench.

Part # (Call with your grinder make/model number) \$229.00

Crack Chasing Saws

Crack Chasing Saw Assemblies

Walk-behind CC-100

Make/Model	Honda GX270
Output Power	9 HP Gas
Max RPM	8,775
Max Cutting Depth	1"
Blade Diameter	6" Dry Diamond
Blade Width	.250", .375", .500" (Rectangular or "V" shaped)

Part # SX90102

\$3,999.00

Cut-Vac shown with blade (sold separately)

Hand-held Cut-Vac

Make/Model	Metabo W24-180
Output Power	15 Amp 110V Electric
Max RPM	8,500
Max Cutting Depth	1-1/8"
Blade Diameter	7" or 8" Dry Diamond
Blade Width	.250", .375" (Rectangular or "V" shaped)

Includes: Grinder, Shroud, Adapter Ring, Depth Adjustment Shoe, Spanner Wrench and Allen Wrench

Part # SX70000

\$895.00

RPM	7,000-10,500
Max Cutting Depth	1-1/4"
Blade Diameter	4", 4.5" or 5" Dry Diamond
Blade Width *	.060", .090", .250", .375"

Includes: Variable Speed Grinder, Shroud, Adapter Ring, Depth Adjustment Shoe, Spanner Wrench and Allen Wrench

Part # SX55010

\$499.00

Tuckpointer shown with blade (sold separately)

Hand-held Tuckpointer

Grinder Make/Model	5" Metabo W8-115
Output Power	8 Amp Electric
RPM	10,000
Max Cutting Depth	1-1/4"
Blade Diameter	4", 4.5" or 5" Dry Diamond
Blade Width *	.060", .090", .250", .375"

Includes: Grinder, Shroud, Adapter Ring, Depth Adjustment Shoe, Spanner Wrench and Allen Wrench

Part # SX55014

\$399.00

* Spacer washer (sold separately) required with .060" & .090" blade widths

Decorative Concrete Saw

Scoring Saw

US Saws Scoring Saw is an affordable & dependable electric hand-held saw for cutting & scoring decorative lines & unique designs into concrete.

The spring-loaded head allows users to easily insert & withdraw blade from cut while the cutting depth is easily adjusted by thumb-screw.

Front & rear guides allow user to easily follow a chalk line while the precision ball-bearing wheels provide smooth movement for accurate cutting.

2-1/2" dust outlet provides for dust controlled cutting when attached to the appropriate vacuum.

An optional pivot base is available for making various diameter circular cuts.

Scoring Saw

Power	120V Electric, 50-60Hz
RPM	11,000
Amps	9.1
Max Cutting Depth	1/2"
Blade Diameter	4.5"
Blade Width	0.90"-.375"
Arbor	20mm

Part # MK168151

\$1,119.00

Scoring Saw Accessories

Vacuum Base Kit for Cutting Arcs

Pivot base with rods for making circular cuts of various diameters

Includes: Vacuum pump, vacuum base, hose with quick disconnect and (4) extension rods

Part # MK168186

\$1,305.00

Grinding, Cleaning & Polishing Wheels

Zec® Silicon Carbide Disc (The Original)

Best for coatings removal of mastics, soft coatings, urethanes, epoxies, carpet glue, or paint

Spiral design and air holes allow disc to run cooler preventing loading

Several grits for different coating removal applications

No backing pad required

Sold in packages of 5

Description	Part #	Price \$(USD)
4.5" #12 Grit	05-10745	\$9.50 ea
4.5" #16 Grit	05-10750	\$8.50 ea
4.5" #24 Grit	05-10760	\$8.50 ea
7" #12 Grit	05-10712	\$10.90 ea
7" #16 Grit	05-10700	\$10.50 ea

PCD (Polycrystalline Diamond) Cup Wheels

Best production when used on thick coatings, epoxy, urethane and other membrane materials--no loading up

Quarter round PCD segments for fast production and long life; Select fewer segments for more aggressive action

Description	Part #	Price \$USD
5" 4 Segment Single Row	PCN0504S	\$153.00
7" 6 Segment Single Row	PCN0706S	\$249.00
7" 8 Segment Double Row	PCN0708D	\$297.00

Arrow Cup Wheels

Best production when used on thick coatings, epoxy, urethane and other membrane materials

Angle of the arrow shaped segment allows segment to scrape and grind at the same time

Design allows segments to burrow underneath coatings and adhesives to remove them

Provide fast production rates and long life

Description	Part #	Price \$USD
5"x7/8" 6 Segment	ARN0506D	\$122.00
5"x5/8"-11 6 Segment	ARN0506T	\$132.00
7"x7/8" 10 Segment	ARN0710D	\$179.00
7"x5/8"-11 10 Segment	ARN0710T	\$185.00

T-Segment Premium Diamond Cup Wheel

Used for planing down high spots and thin coatings removal

Select the T-segment for aggressive grinding with good life

Description	Part #	Price \$USD
4"x7/8" 8 Segment	TTS0408PD	\$ 60.00
4.5"x7/8" 9 Segment	TTS4509PD	\$ 72.00

7"x7/8" 14 Segment	TTS0714PD	\$111.00
8.5"x7/8" 12 Segment #40/50 Grit	TTB851240PD	\$222.00

Grinding, Cleaning & Polishing Wheels

3+3 : 3.57 sq in of segment allows the operator to apply more pressure and is less stressful on the grinder.
 12.56 sq in of grinding area is nearly double that of a standard cup wheel

6+3 : 5.82 sq in of segment; 12.56 sq in of grinding area in motion

9+9 : 10.71 sq in of segment; the best combination of life, production and value. Use with 15+ amp grinder for best results.

3+3 : best for epoxy removal, carpet glue and mastic removal and profiling hard concrete (new concrete with curing compound)

6+3 : best for general surface preparation, removing paint, thin mil epoxy coatings and crystalized glue and mastic

9+9 : best for removing abrasive coatings such as quartz floors, preparing soft concrete and removing thin coatings and tile thin set.

7" SWAT Cup Wheels		
Description	Part #	Price \$USD
3+3 - most aggressive	TCS073318PD	\$139.00
6+3 aggressive; longer life than 3+3	TCS076318PD	\$202.00
9+9 longest life	TCS079918PD	\$266.00

3+3

About US Saws

US Saws manufacturers and sells specialty saws and tools to the construction industry. The principals, Warren Duncan, William Glynn Sr. and Bruce Root, started US Saws in 2001 by developing a distributor network to bring innovative products such as their Magnetic Manhole Lifting Systems and Core EZ portable core drilling systems to the Water & Sewer industry.

Over the last few years they recognized a need to provide professional contractors in the concrete repair business better customer service and direct access to concrete repair equipment and consumables. As the economy improves so has US Saws need to expand and branch out.

Former owners of Sawtec®, US Saws principals each have over 30 years experience in the concrete repair industry and are very knowledgeable about Sawtec products. They are dedicated to improving contractors brand loyalty through innovative product enhancements and personal customer service.

US Saws professional grade surface preparation equipment line includes dust-free tools and accessories for grinding, cleaning and polishing concrete, cutting and widening joints along with other joint cleanout applications and crack chasing equipment. The products are designed for the professional contractor who focuses on concrete repair and surface preparation where time and dust control are critical.

US Saws services three major markets: Water and Sewer Industry, Concrete Repair and Specialty Coating Industry and Rental Houses. Pipe saws, specialty diamond blades and beveling equipment are made available through a Distribution Network of pipe distributors such as HD Supply and Ferguson Enterprises along with many Independent Distributors who stock and resell US Saws products nationwide. Air saws are offered through Rental Outlets like RSC and United Rental as well as many independent rental centers. The Surface Preparation concrete cutting and grinding tools are sold through many of the STAFDA distributors nationwide.

US Saws offers a "Satisfaction Guaranteed" policy on all products sold. Any product, new or used, can be returned for a full credit if you are unsatisfied with it's performance. "Quality, No Excuses!"

Limited Equipment Warranty

US SAWS warrants each new unit to be free from defects in material and workmanship for one year from date of factory shipment.

This warranty does not obligate US Saws to bear any transportation charges or personnel time in connection with the replacement or repair of defective parts. This warranty does not obligate US SAWS to bear any expense for travel time or of personnel in connection with service calls.

Accessories or equipment furnished and installed on the product by US SAWS but manufactured by others shall carry the accessory manufacturer's own warranty.

US SAWS will not, in any event, be liable to the user for any consequential damages arising out of the sale for the loss of use, loss of profits or revenue, interest, lost goodwill or work stoppage.

Return/Claim Policy

1. Return of merchandise for credit or exchange must be done within 90 days of receipt. Authorized US SAWS factory personnel must approve all returns, at which time an RA# (Return Authorization) will be issued. A copy of the RA will then be faxed to the customer to use as a packing list and to describe any defects.
2. Obsolete parts or special orders will not be accepted for return.
3. Package MUST include a copy of the RA. Merchandise shall be returned freight prepaid unless approved otherwise. All returns NOT accompanied by an RA# will be refused.
4. Upon arrival, all items will be evaluated for credit. If an item is deemed defective, a credit will be issued toward any replacement order.
5. Each return will be subject to a 15% restocking charge.
6. Any claims of shortage, damage, defects or wrong items must be submitted to US SAWS within 30 days of receipt.
7. Electric motors and gas engines are covered under the manufacturer's warranty. These items should be sent to their respective service centers for inspection, repair or replacement when deemed necessary.
8. The customer must submit a claim to the carrier when items are received damaged.

The Following Applies To All Orders Shipped In USA & Canada

1. All prices quoted are F.O.B. origin.
