

DURAPLUG FOAM

- Super-soft, slow-recovery tapered shape foam for easy insertion and removal
- High visibility color plus bright color cord make compliance checks quick and easy
- Low pressure, self-adjusting foam offers long wearing comfort and quick recovery time
- Noise Reduction Rating (NRR): 32dB
- Comply to ANSI S3.19

14310 Uncorded, 200 pairs individually packaged per box, orange

14311 Corded, 100 pairs individually packaged per box, orange

DURAPLUG REUSABLE

- Unique 3-layers flange enhances sound insulated effect
- High visibility color plus bright color cord make compliance checks quick and easy
- Firm stem for easy insertion and removal
- Washable and reusable
- Noise Reduction Rating (NRR): 25dB
- Comply to ANSI S3.19

14270 Uncorded, 100 pairs individually packaged per box

14271 Corded, 100 pairs individually packaged per box

Ear Muffs

- High performance earmuff offers excellent noise reduction
- Foldable for storage and lightweight design provides all day comfort
- Adjustable cup on each side to adjust for a snug, comfortable fit
- 3 position adjustable head band
- Noise Reduction Rating (NRR): 37dB
- Comply to ANSI S3.19

Foldable for storage and lightweight design

1437Y

Ear Muffs

- Adjustable ear cups flip outward for an easy, comfortable fit when hanging around neck
- Lightweight earcup design with flexible adjustable holders on both sides allows earmuff to automatically adjust to shape of head
- Noise Reduction Rating (NRR): 30dB
- Comply to ANSI S3.19

Adjustable earcups flip outward for an easy and comfortable fit

1430R

Ear Muffs

- Behind-the-head wire designed to fit well with most helmets or hard hats
- Foam filled cushion padding on ear cups allows for a comfortable wear
- Adjustable ear cups flip outward for an easy, comfortable fit when hanging around neck
- Lightweight and low profile design for continuous wear
- Noise Reduction Rating (NRR): 32dB
- Comply to ANSI S3.19

1432Y

Ear Muffs

- Foam filled, padded earcups fit securely and comfortably over the ear
- Adjustable nylon headband slides and large soft foam ear cups to fit all sizes
- Lightweight and durable construction
- Noise Reduction Rating (NRR): 25dB
- Comply to ANSI S3.19

Adjustable nylon headband

Foam filled, padded earcups

Noise Reduction Rating (NRR) is the greatest amount of sound reduction that a hearing protection device can provide. A higher NRR decibel (dB) rating means a greater amount of noise reduction. Hearing protection devices (HPDs) are earplugs and earmuffs. Earplugs can be made of foam or a polymer. Foam plugs are shaped like small cylinders that you roll and compress then insert into your ear canal. Polymer plugs are "rubbery" and have flanges or fins.
