

Diamond Impregnated Pads Specifically Designed for Stone Surfaces

VIPER Diamond Impregnated Pads are the **CHEMICAL-FREE** solution for care and maintenance of natural stone and terrazzo. **JUST ADD WATER**. Simply use these pads with water and avoid all the risk of chemicals and inexperience.

If you or your customers are looking for an **ENVIRONMENTALLY FRIENDLY, EASY-TO-USE** alternative, the **VIPER** System delivers the best results and ensures consistent performance. No chemicals, no powders, no slurry, **NO MESS**.

For Use On:

- marble
- travertine
- limestone
- terrazzo

Equipment:

Low-Speed Swing Machines

Available Sizes:

7", 17" & 20"

See How
They Work!

Directions for use: Wet

Make sure floor is free of any debris and/or coatings. Mount the appropriate **VIPER** pad onto the pad driver with **VIPER** logo upwards towards the pad driver.

VIPER pads are designed to be used with water. Clean/rinse pads with water after each use.

VIPER Pads are designed for use on machines that will not exceed 800 rpm.

HOW IT WORKS

Deep scratches to high shine, grits for any job

Grit 200

The most aggressive grit available. Designed for removal of moderate scratch damage. Ideal for maintenance on non-polished (honed) marble, travertine and limestone surfaces.

Grit 400

Removes moderate to light scratches and stains leaving a clean matte finish.

Grit 800

Removes fine surface scratches and light stains leaving a smooth slightly reflective finish.

Grit 1,500

Cleans and prepares floor for a high polish. Brings back luster and can also be used for periodic maintenance where scratch removal is not necessary.

Grit 3,000

Cleans and leaves floor with a high polish. Can be used as a daily maintenance pad.

Grit 8,000

Adds additional shine when used after conventional abrasive polishing steps.

Grit 11,000

Yields a super high gloss finish on floors that have been treated with prior steps or conventional abrasive polishing steps. Can be used as a daily maintenance pad.
